Budget application: Ashesi

To the amiv general assembly

During the last semester the amiv board had the pleasure to get in contact with the students of the MAS ETH in Adv. Fundamentals Mechatronics Engineering¹ at Ashesi University in Ghana. After some kickoff meetings it had become clearest, that this group of students shows great interest for the activity at amiv and is willing to contribute. I suggest and apply for a budget to further establish the connection, gain attention for the project and promote interaction between Ghana and Switzerland. Greatest objective is an in-person exchange trip to Ghana / to Switzerland.

The project enjoys strong support from the directorate team (Prof. Zeilinger, Prof. Günther and Prof. Mazza) and I see this international connection as a flagship project for amiv that will enrich us.

Budget application:

I request the following modification to the 2023 budget:

[161A] Ashesi	Expenses	Revenues	Difference
Previous:	CHF -	CHF -	CHF -
New:	CHF 500	CHF -	CHF -500

Yours sincerely

Felix Walcher

President

¹ Being an ETH MAS program it is listed in the VSETH <<Zuordnungsliste>> and assigned to amiv
