Budgetantrag: VELOVE

Dear Generalversammlung

We are a student-run bicycle workshop located on the Höggerberg campus of ETH Zurich. We comprise 93 active members and have roughly 100 visitors per month. We estimate that we save each visitor around 75 CHF on average over a regular bike shop visit.

We promote a more sustainable and affordable means of transportation for students by offering access to all necessary tools and equipment for bike repair and maintenance.

For those learning to fix their bicycles, we provide guidance from experienced volunteers who are passionate about empowering others to take control of their cycling experience.

Everybody who attends learns some mechanical skills!

We are also the home of Irrational Coffee.

We are in a short-term need of some financial support, our long-term plan is to access these funds via VSETH and other means.

We request the following changes to the Budget 2024, only for the financial year 2024:

(162A) Unterstützung externe Organisationen	Aufwand	Ertrag	Differenz
Bisher:	CHF -	CHF -	CHF -
Neu:	CHF 1'000	CHF -	CHF -1'000

Best

Ryan Rueger
